OF EMERGENCY SERVICES

SITUATION SUMMARY

Lake Incident, Vegetation Fire, San Bernardino County

Location of incident: Jenks Lake, Hwy 38, Barton Flats area

Jurisdiction: FRA

Start Time: June 17, 2015 1600 hours

A Federal Responsibility Area (FRA) vegetation fire is burning near Jenks Lake, Hwy 38, Barton Flats area of San Bernardino County.

Per CAL FIRE (no 209 on file) and Cal OES Duty Officers as of 06/18/15 at 0433 hours:

- 100 acres, 15 % Contained
- 77 °, 18 %RH, 14 MPH, NNE
- Threat to Campgrounds, Evacuations requested
- IC requests “No Divert” of Aircraft due to threat to life safety
- Commitment of CAL FIRE Air and Ground resources.

Evacuations/Shelters

- 120 people from Camp de Benneville Pines
- 1 person from Camp Ta Ta Pochon (owned by YMCA).
- 24 people from Camp Alpine Meadows,
- 23 people from Camp Edwards
- 10 people from Camp Tulakes.
- Children from the camps were bused to Citrus Valley High School in Redlands to be reunited with their parents.
- On 6/18/15 at 0433 hours, Per San Bernardino County EOC a shelter has been opened at Citrus Valley High School 800 W Pioneer Ave, Redlands, Ca. Overnight population: 113

Activations

- On 6/18/15 at 0433 hours, the Warning Center was advised by San Bernardino County that they activated their EOC at Level 1 on 06/17/15 at 2015 hours.

There are no requests for assistance or unmet needs.

Cal OES Duty Officers are monitoring the situation and will provide updates as they become available.

SITUATION SUMMARY

Wildcat Fire, San Diego County

Location of incident: Barona Reservation off Wildcat Canyon Road and Akuunyaa Way, East of the Barona Casino

Jurisdiction: FRA

Start date: June 17, 2015 1700 hours

A Direct Protection Area (DPA) and Bureau of Indian Affairs vegetation fire is burning near Wildcat Canyon Rd. mile marker 7, Barona Indian Reservation of San Diego County.

Per CAL FIRE, Cal OES Duty Officers and ICS-209 as of 06/18/15 at 0545 hours:

- 150 acres and 38% containment
- Slow rate of spread.
- Burning west of Wildcat Canyon Rd. and East of Barona Golf Course.
- 1 residential structure is threatened.
- Per the San Diego Sheriff's Department 7 residents on the reservation were given advisory evacuations.
- No other homes/structures are threatened and no other evacuations advisories have been ordered.
- Per Cal Trans, SR-38 has been closed 10.6 mi east of the San Bernardino National Forest at Angelus Lodge Rd, to 5 mi west of the junction of SR-18 at Hatchery Rd.

Cal OES Duty Officers are monitoring the situation and will provide updates as they become available.

SITUATION SUMMARY

Saddle Fire, Trinity County

Location of incident: 4 miles Northwest of Hyampom, Shasta-Trinity Forest

Jurisdiction: Federal DPA, FRA

Per CAL FIRE, Cal OES Duty Officers, and ICS-209 as of 06/18/15 at 0500 hours:

- 1,546 acres, 90% contained
- NORCAL Team 2 in Command
- Per the Cal OES Fire Duty Officer, 140 single residences remain potentially threatened.
- No further spread is anticipated today as isolated islands of concentrated fuels, dead and down snags and logging slash will continue to be consumed. Mop up and identification of suppression repair needs continues
- Expected containment 6/19/15
- Acreage burned by ownership: 1097-Federal, 449-Private.
- Demobilization and fire suppression repair plans are being initiated.

There are no requests for assistance or unmet needs.

Cal OES Duty Officers are monitoring the situation and will provide updates as they become available.

SITUATION SUMMARY

Air Quality

- Recent dry lightning strikes have caused many small fires in the Six Rivers and Shasta-Trinity National Forest as well as State Responsibility Areas.
- Current weather forecasts show the recent low pressure moving out of the area and replaced by a warming trend with drier weather and moderate to light winds over the area.
- The Saddle Fire, located in the Shasta-Trinity National Forest near the town of Hyampom, continues to produce smoke in nearby communities. At this time, smoke is laying in valleys but may lift and transport to further locations throughout the day. Satellite images show smoke traveled north toward Willow Creek and to the southeast past the Hyampom area.
- In Del Norte County, the Buckskin Fire located near Cave Junction, Oregon is producing smoke impacts in downwind areas southwesterly of the fire. Satellite imagery indicates that Smith River could be in the path of the smoke. Crescent City may also be experiencing smoke from the fire.
- Forecasting smoke impacts can be challenging as smoke can vary widely within just a few miles as Humboldt, Del Norte and Trinity Counties contain mountains, valleys, and a thousand different air flow patterns.
- Further Air Quality information will be provided to the public as updated information becomes available.
- For 24-hour Air Quality Information:
 - NCUAQMD's hotline toll-free at 1-866-BURN-DAY (1-866-287-6329)
 - Website: www.ncuagmd.org

SITUATION SUMMARY

SPILL: 15-2785, Refugio Beach, Goleta, Santa Barbara County

- On 05/19/15 at 1243 hours the California State Warning Center received a report from the Santa Barbara County Fire Department indicating that a ¼ mile sheen was observed off of Refugio State Beach, near Goleta, Santa Barbara County.
- The Operation is transitioning from Response to Recovery.
- The Cal OES Santa Barbara Territory Representative will assist in the day to day operations from the Santa Barbara EOC.

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Weather of Concern

- Excessive Heat Warning remains in effect through Monday 06/22/15 2000 hours for areas in Riverside and Imperial Counties.
- Excessive Heat Warning now in effect from Thursday morning 06/18/15 through Monday evening 06/22/15 for areas in Inyo and San Bernardino Counties

Active Weather Warnings, Watches and Advisories by County: http://www.wrh.noaa.gov/sto/brief/www_bc_cal.php

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

Low clouds will persist along the immediate northwest California coast through much of the week. Farther inland, warm temperatures will continue with mostly clear and dry conditions.

Medford Weather:

Stable onshore flow remains over the entire region through this evening. By Friday morning the thermal trough starts to deepen again with offshore flow developing on the extreme southern coastal ranges. The onshore flow will have brought a decent marine push with stratus piling up possibly to the Siskiyou's on the west side by Friday morning. By Saturday morning the thermal trough will have deepened further with offshore flow spreading further inland.

Reno Weather:

Temperatures 5 to 10 degrees above average along with dry conditions will persist through the weekend. Afternoon zephyr winds will prevail each day with slightly stronger winds today and Sunday. The main impacts will be periodic critical fire weather conditions in some areas and choppy waters on area lakes.

San Francisco Weather:

Temperatures will be a little cooler today as upper level ridge flattens out. The ridge will rebuild over the area Friday and Saturday bringing a warming trend. Temperatures cool slightly late in the weekend and early next week as an upper level trough pushes inland to the north.

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Sacramento Weather:

Dry conditions will continue through the coming week. Well above normal temperatures with warmest daytime highs on Saturday and over the second half of next week.

Hanford Weather:

High pressure will continue to bring dry conditions and above normal temperatures through the week and into next weekend. A subtle cooling trend will take place over central California during the first half of next week

WEATHER

WEATHER SYNOPSIS BY REGION:

SOUTHERN CALIFORNIA:

Los Angeles Weather:

High pressure aloft will continue to build into the region for a warming trend through this week and into the weekend. Temperatures are expected to reach their peak on Saturday and Sunday, with triple digit highs possible in the warmest valleys. Temperatures will then cool slightly each day but remain above normal Monday through Wednesday. Marine layer clouds will affect the coastal areas during the night and morning hours to bring some cooling to these areas through the period.

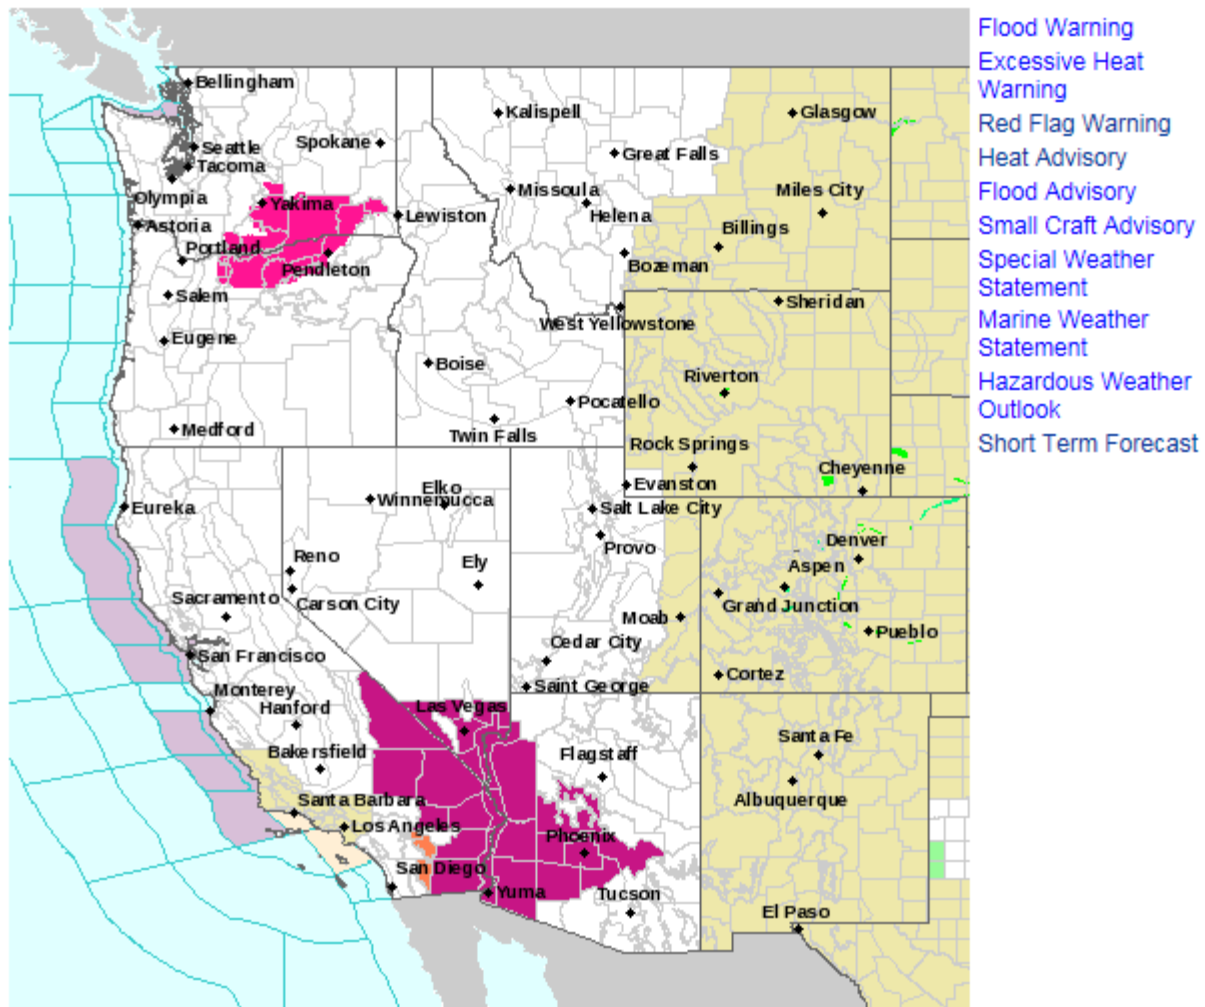

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

High pressure aloft will bring well above average high temperatures for inland areas through the weekend and a shallower marine layer for coastal areas. High pressure aloft will begin to weaken early next week with slow inland cooling and slow deepening of the marine layer. Weak onshore flow and the marine layer will keep coastal areas cooler with areas of night and morning low clouds and fog with limited afternoon clearing near the beaches. The onshore flow will also bring gusty west winds to the mountains and deserts each late afternoon through late evening.

Southeast California Weather:

Hot and dry conditions will persist through early next week as high temperatures across the lower deserts reach into the 110-115 degree range each day. A subtle increase in moisture levels early next week could result in some mountain thunderstorms and some minor relief from the extreme heat.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC, Inland, Coastal, and Southern REOCs and the Santa Barbara County EOC are activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Regional (Inland, Coastal, Southern) conference calls continue to occur on a weekly basis.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

Local Emergency Proclamations:

A total of 57 local Emergency Proclamations have been received to date from city, county, and tribal governments, as well as special districts:

- 25 Counties: El Dorado, Fresno, Glenn, Inyo, Humboldt, Kern, Kings, Lake, Madera, Mariposa, Merced, Modoc, Plumas, San Bernardino, San Joaquin, San Luis Obispo, Santa Barbara, Shasta, Siskiyou, Sonoma, Sutter, Trinity, Tulare, Tuolumne, and Yuba.
- 11 Cities: City of Live Oak (Sutter County), City of Lodi (San Joaquin County), City of Montague (Siskiyou County), City of Portola (Plumas County), City of Ripon (San Joaquin County), City of San Juan Bautista (San Benito County), City of Santa Barbara (Santa Barbara County), and City of West Sacramento (Yolo County), City of Willits (Mendocino County), City of Manteca (San Joaquin County), City of Porterville (Tulare County).
